

Teen Outreach Program

TOP

The Teen Outreach Program was developed to promote the positive growth and development of youth. During the TOP sessions, youth ages 13 & 14, will focus on self-awareness, dealing with emotions, accepting responsibility and decision making....to name a few.

The youth will meet once a week for two hours, throughout the school year. During the program, the youth will go on 4 hikes. The youth will also participate in a community service learning project. TOP is incentive based, so the more sessions you attend the more prizes you could get! At the end of May, we will have a **BIG CELEBRATION!**
